

Course:

Crisis and Business Continuity Management (BS-25999) for Manager

การวางแผนฉุกเฉินต่อเนื่องเพื่อธุรกิจตามมาตรฐาน BS-25999

Duration: 2 Days (9:00-16:00)

Course Description:

BSI's Crisis and Business Continuity Management (BS-25999) course provides participants with framework, example of some practical tools and methods of implementing business continuity management system in organization. This course is based on industry best practice and the Business Continuity Management (BCM) Code of Practice released by BSI, BS 25999. Practical exercises will provide students with the opportunity to gain skills to introduce BCM into an organization. Students will return to their organizations with the knowledge of how to jump start a crisis management or business continuity management system based on BS 25999 in your company.

The business continuity management (BCM) is a business-owned, business-driven process that establishes a fit-for-purpose strategic and operational framework that proactively improves an organization's resiliencies against the crisis and disruption, provide a rehearsed method of restoring an organization's ability to supply its key product and services and delivers a proven capability to manage a business disruption and protect the organization's reputation and brand. This make BCM become an essential part of modern business operation.

Learning Objectives:

Upon completion of this course, students should be able to:

- Articulate the requirements outlined in BS 25999 and explain the purpose and benefits of Business continuity management system (BCMS);
- Apply the process (PDCA, Plan-Do-Check-Act) approach for Crisis and Business Continuity Management
- Explain the processes in establishing, implementing, operating, monitoring, reviewing and improving an BCMS as defined in BS 25999
- Understand and explain the key concepts of BCMS, e.g.
 - Business impact analysis (BIA)
 - Risk assessment (RA)
 - Incident management plan (IMP) and
 - Business continuity plan (BCP)

Who should attend:

- Anyone interested in the implementation of BS 25999
- Participants involved in developing, operating, and/or maintaining business continuity systems based on BS 25999
- Professionals interested or involved with introducing BS 25999 into an organization
